

**IMPORTANT INFORMATION ABOUT YOUR DRINKING WATER**  
**MONITORING REQUIREMENTS NOT MET FOR**  
**CAMERON WATER, WV3302603**  
**V#2022-391011**

We are required to monitor your drinking water on a regular basis. Results of regular monitoring are an indicator of whether or not our drinking water meets health standards. Between 01/01/2022 and 01/31/2022, we failed to submit the required samples as indicated below and therefore cannot be sure of the quality of our drinking water during that time.

**What should I do?**

There is nothing you need to do at this time.

**The table below lists the required monitoring and the compliance period.**

<b>Required Monitoring</b>	<b>Compliance Period:</b>
38, MONITORING, ROUTINE (IESWTR/LT1), MINOR TURBIDITY IMPROPERLY COMPLETED EW-90A, PAGE 2 OF 2	01/01/2022 to 01/31/2022

**What happened? What is being done? (Describe corrective action)**

Improperly Completed EW-90A, page 2 of 2 was missing a signature. When City of Cameron noticed the missing signature, we immediately got the form signed and sent in. Unfortunately it was received after the compliance period of 01/31/2022. We will have forms triple checked for future submissions. To verify nothing is missed.

Public Notice being distributed to residents of The City of Cameron.

For more information, please contact

Nichole M. Bryan at 304-686-2366 or 44 Main Street Cameron, WV 26033

Please share this information with all the other people who drink this water, especially those who may not have received this notice directly (for example, people in apartments, nursing homes, schools, and businesses). You can do this by posting this notice in a public place or distributing copies by hand or mail.

CAMERON WATER, WV3302603  
V#2022-391012

We are required to monitor your drinking water on a regular basis. Results of regular monitoring are an indicator of whether or not our drinking water meets health standards. Between 04/01/2022 and 06/30/2022, we failed to submit the required samples as indicated below and therefore cannot be sure of the quality of our drinking water during that time.

**What should I do?**

There is nothing you need to do at this time.

**The table below lists the required monitoring and the compliance period.**

<b>Required Monitoring</b>	<b>Compliance Period:</b>
27, MONITORING, ROUTINE (DBP), MAJOR Failure to Monitor/Report Disinfectant By-Product Precursors (TOC and/or Alkalinity)	04/01/2022 to 06/30/2022

**What happened? What is being done?** (Describe corrective action)

Samples were taken on time but not received by lab by due date. Operator is going to start taking samples earlier in the month to make sure enough time for delivery and to be received by lab.
