

IMPORTANT INFORMATION ABOUT YOUR DRINKING WATER
MONITORING REQUIREMENTS NOT MET FOR
CAMERON WATER, WV3302603
V#2026-391074

We are required to monitor your drinking water on a regular basis. Results of regular monitoring are an indicator of whether or not our drinking water meets health standards. Between 10/01/2025 and 12/31/2025, we failed to submit the required samples as indicated below and therefore cannot be sure of the quality of our drinking water during that time.

What should I do?

There is nothing you need to do at this time.

The table below lists the required monitoring and the compliance period.

Required Monitoring	Compliance Period:
27, MONITORING, ROUTINE (DBP), MAJOR Failure to monitor/report Trihalomethanes (TTHMs)	10/01/2025 to 12/31/2025

What happened? What is being done? (Describe corrective action)

Samples were taken on time, but samples were taken in improper bottle. Lab rejected samples. Operator needed to resample and have those sent back to lab. By the time samples were received by the lab it was not within compliance period. Samples were received after compliance period had passed.

Public Notice being distributed to residents of The City of Cameron.

For more information, please contact
Jeff Gardner at 304-686-2366 or 44 Main Street Cameron, WV 26033

Please share this information with all the other people who drink this water, especially those who may not have received this notice directly (for example, people in apartments, nursing homes, schools, and businesses). You can do this by posting this notice in a public place or distributing copies by hand or mail.
