

**IMPORTANT INFORMATION ABOUT YOUR DRINKING WATER
MONITORING REQUIREMENTS NOT MET FOR**

CAMERON WATER, WV3302603

We are required to monitor your drinking water on a regular basis. Results of regular monitoring are an indicator of whether or not our drinking water meets health standards. Between 6/1/2024 and 6/30/2024, we failed to submit the required samples as indicated below and therefore cannot be sure of the quality of our drinking water during that time.

What should I do?

There is nothing you need to do at this time.

The table below lists the required monitoring and the compliance period.

Required Monitoring	Compliance Period
36, MONITORING, RTN/RPT MAJOR (SWTR-FILTER) CHLORINE Missing Required Chlorine Residual Associated with a Bacteriological Sample and/or Missing Required Chlorine Residual Associated with Entry Point to the Distribution System	6/1/2024 to 6/30/2024

What happened? What is being done? (Describe corrective action)

Sample was taken by operator and placed in drop location. Office was not made aware of sample. It was not sent in during the correct Compliance Period. Operator will communicate with office to alert us when samples are complete and need mailed out.

For more information, please contact Aaron Foster at 304-280-9017
(Contact name) (Phone number)
or 44 Main Street Cameron, WV 26033
(Mailing address)

Please share this information with all the other people who drink this water, especially those who may not have received this notice directly (for example, people in apartments, nursing homes, schools and businesses). You can do this by posting this notice in a public place or distributing copies by hand or mail.

What should I do?

There is nothing you need to do at this time.

The table below lists the required monitoring and the compliance period.

Required Monitoring	Compliance Period
3A, MONITORING, ROUTINE, MAJOR (RTCR) Valid Compliance Total Coliform Sample(s) Not Reported as Required	6/1/2024 to 6/30/2024

What happened? What is being done? (Describe corrective action)

Samples were taken and mailed to Lab. Sample bottle was damaged so lab couldn't use. We sent another sample. But missed the compliance period.

Operator to take samples earlier so in case something gets damaged. There is enough time to resample within compliance period.
